PROFILE

A budding Front-End Web Developer, currently pursuing B.Tech. in Information Technology from Manipal University Jaipur. I am practicing Full Stack Web Development at my full pace and seeking internship opportunities in this field.

EDUCATION

Qualification	Institution	Year	Performance
B. Tech (IT)	Manipal University Jaipur	2020 – 2024	9.13 CGPA (Till 3rd semester)
Class XII (C.B.S.E.)	Maharshi Patanjali Vidya Mandir	2019 – 2020	83%
Class X (C.B.S.E.)	Maharshi Patanjali Vidya Mandir	2017 – 2018	76.4%

PARTICIPATION

HACKATHON :- Google Startup Weekend (Organized by :- Techstars).   **APRIL , 2021**

- In this hackathon I had to create a team of 4 members and we had to pitch our startup idea to a panel of 5 jugdes.
- My role was of frontend prototype creator in the team in which I created a website using HTML and CSS where one can get all the information, training, podcasts, etc. to build a successful startup.
- My team stood 5th among 50 teams participating in the hackathon.

PROJECTS

- **Amazon-Clone** –
  - **Technologies used :** ReactJS , React Context API , Firebase , Javascript , HTML , CSS.
  - In this Amazon website clone, user can login using his/her email ID and password and go to the home page where he/she can add items to the basket and on going to the basket can check the total price of items in the cart.
  - In this project I got to know about the basics of How to link our Firebase database to the main code.
- **Tesla-Clone** –
  - **Technologies used :** ReactJS , Javascript , HTML , CSS.
  - It is the homepage frontend of the tesla.com.
  - This was my first project on ReactJS. I got to know about the libraries used to make our website more attractive like material-ui icons, styled components , React Reveal which is used for animations.
- **Grocery Bud** –
  - **Technologies used :** Javascript , HTML , CSS.
  - It is a grocery list making webapp where one can store the list of daily grocery needs.
  - In this project I learnt to access the local storage. Like adding , removing , editing the local storage.
